

AA-T and AS-T Degrees – Update and Ideas

Stephanie Low, CCCCCO

Michelle Pilati, ASCCC

Overview

- C-ID descriptor status and TMC development
- C-ID and TMCs
- Understanding the use of the TMCs
- Tips for approval of a TMC-aligned degree
- Suggestions for Curriculum Committees
- What's working? Where are the challenges?
- What can the Academic Senate do to assist?

C-ID Descriptor Status

- www.c-id.net
 - Descriptors, finalized and draft
 - TMCs, finalized and draft
 - **Sign up for list servs**
- Goal – finalize descriptors as TMCs are finalized.
- Everything that is now in draft – vetting scheduled to end **April 11**

TMC Development

- Vetting now:
 - AJ, ECE, Geology, History, Physics, Theatre
- Expected in next cycle:
 - Art
 - Biology
 - Chemistry
 - Business
 - Music

Note on Timelines

- Once vetting is completed, the Faculty Discipline Review Group (FDRG) must be convened
- Some groups work more quickly than others...
- “Grouping” approach is being used to prompt progress and have some element of predictability

What is a TMC?

- An intersegmentally developed structure for the major component of a CCC degree
- One goal is to establish some statewide consistency in major preparation > simplify transfer
- TMCs are intended to identify commonalities and to allow local CCCs to develop degrees that best work for where their students go

Understanding the use of the TMCs

- TMCs are intended to direct the development of degrees that
 - facilitate transfer
 - make sense as a “terminal” degree at a CCC
- Course restrictions are intended to ensure that degrees “work” for transfer
- The TMC is a guide to create a degree that facilitates transfer and course selections should reflect this

Tips for approval of a TMC-aligned degree

- Use provided forms
- Read the instructions document available from at <http://www.cccco.edu/1440>
- Provide all required information
- View the webinar archive on TMC documentation at <http://cccconfer.org>:
 - 03/28/11, 1:00 PM, AA-T and AS-T Degree Proposals: TMC and documentation

Suggestions for Curriculum Committees

- The legislation calls for degrees that consider existing articulation – consider this in your review process.
- The TMCs are intended to allow for all possible logical local options – emphasis on **logical** and **local**.
- Encourage out-of-discipline options, as appropriate.
- Serve as an impartial mediator, as needed.

How does a TMC “work”?

- Imagine a CCC that “feeds to” Sac State and CSU Chico
- Does the Psychology TMC “work”?

Psychology TMC

- Intro, Stats, Methods – “Core”
- List A – Biopsych, Intro Bio*
- List B – Any course with articulation as CSU Major Prep
- List C – Any CSU transferable psych course and any course with articulation as major prep at a university (CSU or UC)

Sac State AND CSU Chico

- Intro
- Methods
- Core
- Core

CSU Bakersfield

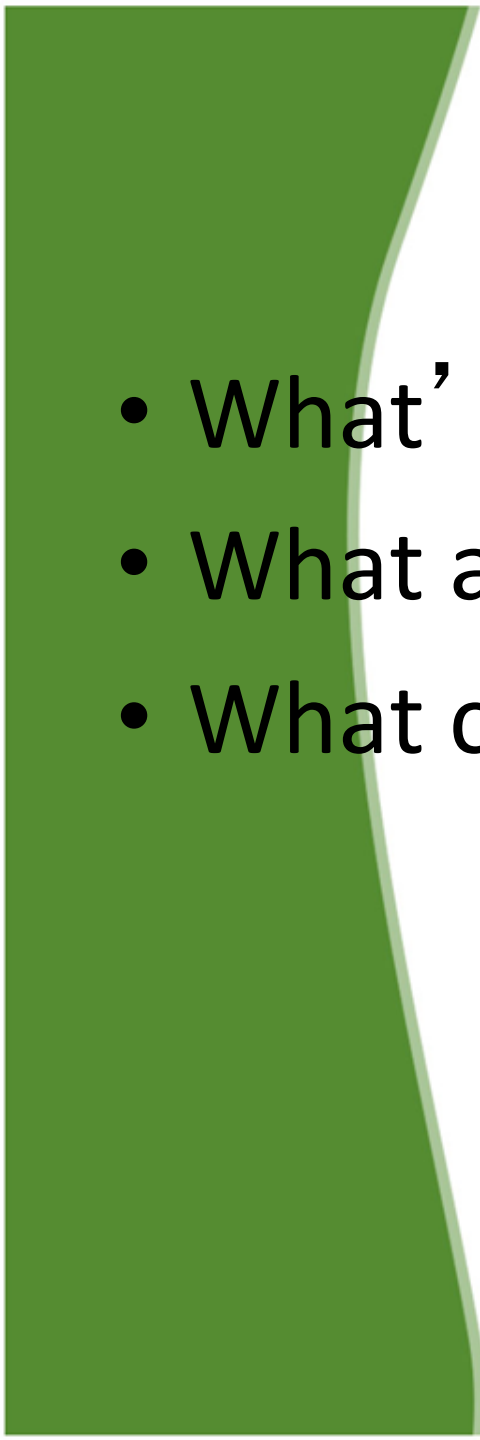

- Intro
- Stats
- “Psych as a Profession”
- “Interpersonal and Group Process Skills”
- Core
- Core
- List B
- List B

CSU San Jose

- Intro
- Stats
- Biopsych
- Intro Bio
- 2nd semester
English
composition
- Core
- Core
- List A
- List A
- List B

Example of Approved TMC- Aligned Degrees

- 
- What's working?
 - What are the challenges?
 - What can we do to help?

From SB 1440 to CEC § 66746

- The bill is now law in California
Education Code sections 66745-49
- California Community Colleges (CCC) and California State University (CSU) Chancellors' Offices convened an oversight committee to implement the law

Unknowns

- Many admissions components have yet to be finalized
- Definition of “local” under development
- How “high-unit” majors will be handled
- Details will be public as soon as work is completed

Known

- Definition of “similar” degrees
- CSU reviews the TMC and determines whether or not a student who has completed a TMC-aligned degree can “finish” at the CSU in 60 units
- Major or majors at the CSU that are “similar” are identified

Murky

- How do CSU's "graduation requirements" fit into all this?
- Issues with respect to potential high-unit "local graduation requirements" at CSUs
- Issues with respect to the CSU's systemwide "American History and Institutions Requirement"

Benefits of CEC § 66745-49

- Benefits for students
 - Combines two desirable outcomes for students: earn an associate degree AND prepare for transfer
 - Establishes a clear pathway for transfer
 - Probable financial benefits
- Intersegmental collaboration of discipline faculty, CCC and CSU Academic Senates, and Chancellors' offices
- Potential fiscal benefits for taxpayers

Implementation of 1440

- New report basically says we've got it right.
- **Implementing Statewide Transfer & Articulation Reform - An Analysis of Transfer Associate Degrees in Four States**

Compliance Requires:

- Minimum of two such degrees available to students in Fall 2011
- **No more than 60 transferable units,** completion of IGETC or CSU Breadth, 18 units in major
- Minimum GPA of 2.0
- No additional local requirements
- Degrees are Associate in Arts (Science) in <major> for Transfer

Timeline

- Fall 2011
 - Some degrees available to students
 - CSU implements admission process
 - Discipline faculty continue to develop more templates

C-ID Fall 2011

- DIG/FDRG Meeting
 - Anthropology
 - Engineering (no TMC expected)
 - Others TBD
- Convene faculty remotely (CCCConfer) to work on single courses
 - “student success”
 - Intro to health sciences
 - Additional courses for teacher prep

Intersegmental Curriculum Workgroup (ICW)

- CCC and CSU Academic Senates charged with curricular aspects of implementation
- ICW established with representation from the CCC and CSU Academic Senates and Chancellors' offices
- Conceptualized Transfer Model Curriculum (TMC)
- Subcommittee of senate appointees review TMC as recommended by discipline faculty

Transfer Model Curriculum (TMC)

- The development of TMCs is an effort to provide a statewide response to the implementation of SB 1440 (CEC § 66746)
- Under development in various disciplines, leading to a variety of majors at CSU
- Establishes the appropriate preparation for the major according to intersegmental discipline faculty
- Defines parameters to assist local faculty in the creation of new degrees
- Allows for priority approval of new degrees at the CCC Chancellor's Office

AA-T and AS-T

- New degrees meeting requirements of CEC § 66746 – an associate degree AND transfer
- New degree title combines both benefits for students: Associate in Arts in <major> for Transfer → AA-T (same for AS-T)
- Statewide approach with intersegmental discipline faculty establishing major preparation for students transferring to CSU
- Through C-ID, the TMC are created, vetted, finalized, and recommended

TMC Majors

- Focus on the top 20 transfer majors
 - #1 = Business (Spring 2011)
 - #2 = Psychology
 - #3 = Liberal Studies (“teacher preparation”, Spring 2011)
 - #4 = Sociology
 - #5 = Accountancy (Spring 2011)

TMC Majors

#6 = Criminal Justice (Group 3)

#7 = Kinesiology/PE (Group 3)

#8 = Management (Spring 2011)

#9 = Communication Studies

#10 = Biology (In progress – challenges due to unit limits)

- Additional majors will be added over time.

Senate Definitions of Associate Degree

- The Academic Senate resolved that associate degrees should be classified as follows:
 - Associate in Science (AS) should be used for any Science Technology Engineering or Mathematics (STEM) field and career technical education (CTE) programs.
 - Associate in Arts (AA) should be used for everything else

Academic Senate Resolution 9.06, Spring 2008

Local Application of TMC

Who is involved–

- Academic senates
- College vice presidents
- Curriculum chair
- Articulation officer
- Discipline faculty
- Counselors
- Registrars
- Evaluators, and many others

Local Application of TMC

What –

- Discipline faculty develop an AA-T or AS-T in a major aligned with TMC
- Curriculum Committee facilitates the local approval process
- Student Services personnel facilitate the evaluation of degree requirements, transcripts, messages to students, etc.

How – Curriculum Committee

- Forward approved TMC to respective faculty for consideration
- Provide local timelines
- Develop a process to streamline and expedite local development and approval

Curriculum Committee (cont.)

- Send reminders on due dates
- Review generic catalog descriptions and discuss calendar issues
- Remind discipline faculty to sign up for listservs (available at www.c-id.net) and participate in review of draft TMC
- Ensure that these degrees comply with CEC § 66746

How - Discipline Faculty

- Use TMC template to align existing courses in order to create a new AA-T or AS-T
- Only courses allowed by the template can be included in the degree requirements
- Follow local processes for obtaining approval (i.e. department votes, complete appropriate local forms)

Discipline Faculty (cont.)

- Ask for assistance from articulation officer, transfer center director or counselors
- Continue to participate in C-ID process; submit courses for C-ID designation

How – Local Academic Senate

- Give authority, if necessary, to curriculum committees to modify local processes to expedite degree approval
- Ensure that senate policies for AA-T and AS-T degree standards are consistent with CEC § 66746
- Support discipline faculty participation in C-ID and TMC reviews

How – Local Academic Senate

- Recommend for board approval newly created degrees
- Report progress to board concerning
 - implementation
 - student success

How - Student Services

- Articulation Officers
 - Assist in facilitation of AA-T or AS-T development; help discipline faculty
 - Assist with identifying courses that double count
 - Coordinate with deans of admissions and counseling and evaluators to ensure compliance with CEC § 66746
 - Facilitate the submission of courses to C-ID

Student Services (con' t)

- Vice Presidents of Student Services
 - Coordinate, plan and communicate with Vice President of Instruction
 - Support counselors, articulation officers, transfer center directors in their work
 - Develop local processes for tracking, transcripts, role of evaluators, other logistics
 - Channel questions to the Chancellor's Office through Student Services office

Student Services (con' t)

- Counselors and Transfer Center Directors
 - Assist discipline faculty in creation of new degrees
 - Develop materials for students
 - Understand and communicate the admissions components of AA-T and AS-T degrees

Review the TMC Templates

- See handout with template for Communication Studies
- See handout with template for Psychology
- See TMC Overview Handout
- See TMC Process Handout
